

[REDACTED]

I know that calling [REDACTED] or visiting [REDACTED] would be a effective way to reach you in case you don't take action. Don't try to escape from this. You've no idea what I'm capable of in Petaluma.

It's important you pay attention to this message right now. Take a minute to relax, breathe, and really dig into it. 'Cause we're about to discuss a deal between you and me, and I don't play games. You don't know me but I know you very well and right now, you are wondering how, correct?

Well, you've been a bit careless lately, clicking through those girly videos and venturing into the darker corners of cyberspace. I actually placed a Malware on a porn website & you accessed it to watch (you know what I mean). And when you got busy watching our videos, your smartphone started out operating as a RDP (Remote Control) which allowed me complete access to your device. I can look at everything on your screen, switch on your cam and mic, and you wouldn't even notice. Oh, and I've got access to all your emails, contacts, and social media accounts too.

Been keeping tabs on your pathetic existence for a while now. It's simply your hard luck that I found your misdemeanor. I gave in more time than I should have exploring into your life. Extracted quite a bit of juicy info from your system. and I've seen it all. Yeah, Yeah, I've got footage of you doing embarrassing things in your house (nice setup, by the way). I then developed videos and screenshots where on one side of the screen, there's whatever garbage you had been playing, and on the other part, it's your vacant face. With just a click, I can send this filth to every single of your contacts.

Your confusion is clear, but don't expect sympathy. Wholeheartedly, I am willing to wipe the slate clean, and let you continue with your life and wipe your slate clean. I am going to offer you two alternatives.

First Choice is to ignore this email. Let's see what is going to happen if you take this option. I will send your video to your entire contacts. The video was straight fire, and I can't even fathom the embarrassment you'll endure when your colleagues, friends, and fam watch it. But hey, that's life, ain't it? Don't be playing the victim here.

Second wise option is to pay me, and be confidential about it. We will name it my "privacy charges". Let's see what will happen when you pick this path. Your secret will remain private. I will destroy all the data and evidence once you come through with the payment. You need to make the payment through Bitcoin only. Pay attention, I'm telling you straight: 'We gotta make a deal'. I want you to know I'm coming at you with good intentions. I am a man of my words.

Required Amount: USD 1950

BTC ADDRESS: 17YmzNuuDEeyXfL2qXgNBjkS5QMMYXfnBn

Let me tell ya, it's peanuts for your peace.

Notice: You got one day to sort this out and I will only accept Bitcoins (I've a special pixel in this e-mail, and at this moment I know that you've read through this email). My system will catch that Bitcoin payment and wipe out all the dirt I got on you. Don't even think about replying to this or negotiating, it's pointless. The email and wallet are custom-made for you, untraceable. If I notice that you've shared or discussed this mail with someone else, your shitty video will instantly start getting sent to your contacts. And don't even think about turning off your phone or resetting it to

factory settings. It's pointless. I don't make mistakes [REDACTED]

Can you notice something here?

Honestly, those online tips about covering your camera aren't as useless as they seem. I am waiting for my payment..
